# LOCAL CALLS TO BE DIALED DIRECT

The following are local calls and may be made by dialing the listed number:

From	To
Virginia Beach .....	Norfolk
Virginia Beach .....	South Norfolk

## HOW TO MAKE LONG DISTANCE CALLS

You can dial station-to-station calls to many places in the United States and Canada. Instructions for making these calls may be found on Page 6 under DIRECT DISTANCE DIALING.

Other long distance calls, including person-to-person, credit card, collect calls, and all calls from coin telephones require the services of an operator, who can be reached by dialing "Operator."

### Station-To-Station

Call station-to-station if you will talk with anyone who answers. Rates are lower than person-to-person. Charging begins when the called telephone answers.

### After 9 Calls

Between 9 p.m. and 4:30 a.m. you may make a station-to-station call to any point in Virginia at a charge of not more than \$.50 for the first three minutes and \$.15 for each additional minute, provided the charges are to be billed to and collected from the telephone from which you call.

### Person-To-Person

Call person-to-person when you must talk to a particular person or extension telephone. Rates are higher than station-to-station. Charging begins when the called person or extension answers.

### To Call Collect

Upon request, charges on most calls to points in the United States, Alaska, Canada, Cuba, Hawaii and Puerto Rico, may be collected at the called telephone. Tell the operator you want the call made collect. On collect station-to-station calls within Virginia an additional charge of 15 cents applies.

## TYPICAL RATES TO OUT-OF-TOWN POINTS

*Day Rates* apply from 4:30 a.m. to 6:00 p.m. weekdays; *Night and Sunday Rates* from 6:00 p.m. to 4:30 a.m. weekdays and all day on Sundays, Thanksgiving, Christmas and New Year's days. "After 9" rates on station-to-station calls apply on all days between 9 p.m. and 4:30 a.m. to any point in Virginia. Call The Long Distance Operator For Rate Information On Overseas Calls.

The Federal Excise Tax on long distance calls is 10% of the total charge. On calls made from coin telephones this tax is collected to the nearest five cents.

## LOCAL EMERGENCY CALLS

FIRE \_\_\_\_\_ POLICE \_\_\_\_\_

It is suggested you immediately ascertain the correct telephone numbers which should be called in an emergency and list them above.

You may secure assistance on emergency calls by dialing "Operator."

**For Federal Bureau of Investigation (FBI) Office Call "Information"**  
**For Coast Guard, Marine or Air Emergency Call GA 8-1414**

**WARNING:** Virginia State law provides that any person shall be guilty of a misdemeanor "who fails to relinquish a telephone party line after he has been requested to do so to permit another to place an emergency call" or "who requests another to relinquish a telephone party line on the pretext that he must place an emergency call, knowing such pretext to be false." The law defines an "emergency call" as "a call to report a fire or summon police, or for medical aid or ambulance service, in a situation where human life or property are in jeopardy and the prompt summoning of aid is essential."

## HOW TO MAKE SERVICE CALLS

## IMPORTANT TELEPHONE NUMBERS

[illegible]

## BUSINESS OFFICE

For all business transactions with the Company please call  
your Business Office

L. F. PATRICK, Manager

203 31st Street

Virginia Beach, Va.

Telephone 428-9911

## GENERAL INFORMATION

### Identification of Employees

Employees who are authorized to examine, exchange or remove any of this Company's apparatus carry an identification

card signed by an official of the Company which they will be glad to exhibit upon request.

### Directory Accuracy

Every effort is made to make the directory as accurate as possible. The Company, however, assumes no liability for damages arising from errors or omissions in making up or printing of this directory.

Please report to your Business Office promptly, any incorrect listings so that our records may be adjusted for the next issue and your service be protected in the meantime.

### Voice Recording Equipment

A short, high "beep" tone heard on the telephone line about every fifteen seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line. Use of a recorder without this signal is contrary

to the Company's tariffs and is not permitted.

If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine.

## TELEPHONE BILLS

Telephone bills are due upon presentation. When payment is made in person, the bill should always be presented. When remittance is made by mail, please address it to the Business Office, accompanied by the bill stub. If the bill has been mislaid, kindly enter your telephone number on the check to identify the payment.

### BILLING DATE

Telephone bills are dated as follows and are mailed a few days later:

340-8000	—	340-9299.....	5th
GA 8(428)-0000	—	GA 8(428)-4999.....	5th
GA 8(428)-5000	—	GA 8(428)-9999.....	19th

## The Chesapeake And Potomac Telephone Company Of Virginia

General Offices: 703 East Grace Street, Richmond 19, Va.

Dial 648-9121

# HOW TO USE THE DIAL TELEPHONE

## BE SURE OF NUMBER

Please do not call from memory unless you are sure that the number is correct. If in doubt, obtain the number from the directory. Write it

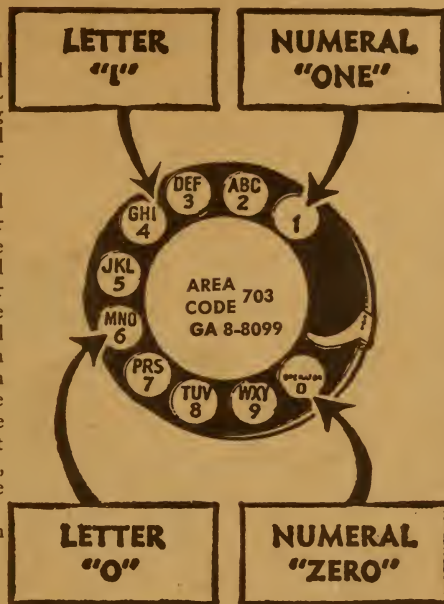

down and refer to it while dialing. If the desired listing is not in the directory, dial "113" (Information).

## HOW TO DIAL

Remove the receiver and LISTEN FOR THE DIAL TONE—A steady humming sound. The equipment will not function until you hear this sound.

For example, to call GARDEN 8-8099: Place your finger in the opening at the letter G and pull the dial around until your finger strikes the stop. Remove your finger and let the dial return freely. Do not touch the dial as it returns. Then dial the letter A and the digits 8-8-0-9-9 in the same manner. It is important that dialing be continuous, with the shortest possible interval between digits.

If you make an error in

dialing, hang up for a few seconds and dial the complete number again. A burrr-ing sound indicates that the called telephone is ringing. A buzz-buzz sound indicates that the called line is busy, in which case, replace the receiver and dial later.

If you should reach a wrong number, the telephone reached may be in another city. You should therefore ask the person answering for his telephone number and the city in which he lives. If it is an out-of-town point, hang up, then dial "Operator" and report it to avoid being billed for a long distance call.

## EMERGENCY CALLS

In an emergency, or if you need help in getting a number, dial "Operator." On such calls you can get the operator back again by moving the hook up and down slowly.

## OUT-OF-TOWN CALLS

Instructions on how to place out-of-town calls with the operator are shown on the Inside Front Cover under "How to Make Long Distance Calls."

Instructions on how to dial your own long distance calls are shown on page 6 under "Direct Distance Dialing."

## HOW TO CALL A PARTY ON YOUR LINE

### TWO-PARTY TELEPHONES—

1. Dial the listed number.
2. When you hear the busy signal, hang up.
3. When your bell stops ringing, your party has answered.
4. If the called party does not answer, lift your receiver to stop your bell from ringing.

### ALL OTHER PARTY-LINE TELEPHONES—

1. Dial the listed number.
2. When you hear a steady high pitched tone, dial the one digit party-line code as shown on your station number plate.
3. When you hear the busy signal, hang up.
4. When your bell stops ringing, your party has answered.
5. If the called party does not answer, lift your receiver to stop your bell from ringing.

# AREA CODES — the key to

The United States and Canada are divided into more than 100 telephone areas, each identified by a three digit Area Code. A partial list of places you can dial direct and their Area Codes are shown on Pages 7 & 8.

Since some localities cannot yet be dialed please consult Page 6 "Long Distance Calls you can Dial" for instructions on obtaining Area Codes.

# faster LONG DISTANCE calling

Use AREA CODES on calls placed with operator

Even on calls you must place with the Long Distance Operator, use of the Area Code will help you get them through faster. Just give the operator the Area Code and the telephone number you want. For example say "Area Code 311, 555-2368." If the operator needs to know the name of the place you are calling she will ask for it.

This map shows telephone areas and Area Codes in the United States and Canada.

## DIRECT DISTANCE DIALING

All customers may dial their own station-to-station long distance calls to many points. This is known as DIRECT DISTANCE DIALING. The regular rates for station-to-station calls apply.

### LONG DISTANCE CALLS YOU CAN DIAL

A partial list of points you can dial direct is shown at the bottom of this page and on the following pages. Station-to-station calls to customers at these points may be dialed - - provided you have the telephone number. If the city you wish to call is not listed, dial "Operator" and ask her if it can be dialed.

Other long distance calls, including person-to-person, credit card, collect calls, and all calls from coin telephones require the services of an operator. On such calls, dial "Operator."

### IF YOU DO NOT KNOW THE TELEPHONE NUMBER AT A DISTANT POINT WHICH YOU CAN DIAL

Dial "Operator" and tell her, for example, "Give me Information for a number in Atlanta, Georgia." She will connect you with an Information Operator who will give you the number.

Information can be reached in some cities by dialing 1 followed by the Area Code, followed by the digits 555-1212. These cities are indicated by an asterisk (\*) on the following pages.

There is no charge for calls to Information, whether dialed by you or placed with the operator.

After you have obtained the number, jot it down for future reference. Always hang up a moment before dialing the call.

### HOW TO DIAL A LONG DISTANCE CALL

For Virginia points which are outside your local calling area, dial 1 followed by the telephone number.

(See inside "Front Cover" for local calling area points.)

For example — To reach 244-3499 in Newport News, Virginia, dial 1-244-3499.

For out-of-state points dial 1 followed by a three digit "Area Code" and then dial the telephone number. These area codes may be found on the following pages.

For example — To reach 539-9900 in Baltimore, Maryland, dial 1-301-539-9900.

It is important that dialing be continuous, with the shortest possible interval between digits.

### IMPORTANT

If you are calling from a Virginia Beach individual or two-party telephone, the calling number will be automatically identified. However, if you are calling from any other telephone, immediately after you have completed dialing and before the called number starts to ring an operator will ask you for your number. Be sure to give her the number you are calling from, NOT the number you are calling.

### IF YOU REACH A WRONG NUMBER—

When dialing a long distance call, or if any telephone other than the one desired answers you —

1. Try to determine the telephone number and the city you have reached; then —
2. Dial "Operator" IMMEDIATELY and tell her what happened so that you will not be billed for the call.

### NO CHARGE IS MADE WHEN—

The telephone you call is busy or does not answer.

You reach an operator who gives you information about the number you called.

### PRINCIPAL VIRGINIA POINTS WHICH CAN BE DIALED

No Area Code required. To make a Long Distance call to points in Virginia, dial 1 followed by the telephone number.

**"Please make it brief!"**

---

***That goes for PARTY-LINE TELEPHONE calls, too!***

It's easier for everybody to get calls through promptly on a party line, if every one makes his calls *brief*.

You're a Good Telephone Neighbor when you —

***Answer promptly***

***Avoid making a series of calls one after another***

***Remind your children not to monopolize the line — or interrupt***

If some one has to break into your call for a real emergency, of course, you will be willing to give up the line.

## How to keep from burning the soup

*Save steps—and soup—  
with a kitchen extension  
telephone*

Try a kitchen extension  
telephone to make things easier  
around the house!

In the kitchen, you can keep  
an eye on all those good things  
on the stove — and answer the  
telephone at the same time—  
if you have a kitchen extension.  
Comes in mighty handy, too,  
when you're planning your meals  
and ordering groceries.

An extension telephone in the  
woman's bailiwick — the kitchen  
— saves many a step and lots of  
time. And you can have all this  
convenience for just a few cents  
a day. Just call our Business  
Office now.

## ASK YOUR BUILDER

to install conduit for up-to-date telephone wiring. It conceals and protects wiring within the walls. It allows you to provide now for future additional telephones, which can be installed when you need them—without cutting through walls and floors, without exposed wiring. It costs little to install during construction.

The answer to any buying problem is quickly solved by consulting these pages.

## EMERGENCIES

An emergency may place thousands of people in peril; it may involve only an individual. The smell of smoke or the sound of prowlers in the home may create a crisis as real as those of flood, hurricane or earthquake.

All emergencies alike place a premium on communication facilities by which aid may be summoned swiftly. Every telephone has a potential value far outweighing that which is measured by its actual use, because it stands ready even for the emergencies which may never arise, but which are ever-present possibilities.

The "Spirit of Service" is a tradition in the telephone business—a powerful force throughout the entire organization. It helps all employees realize how much telephone service means to everyone—how important it is to get every message through quickly. It inspires telephone workers in all kinds of jobs to devote themselves to making service satisfactory and pleasing to you in every way.

## Adding to the Calendar

By giving February a twenty-ninth day,  
Leap Year adds a single day to a single  
month.

If it were possible to compute the total of  
the seconds, minutes and hours gained each  
year through time saved by the use of the  
telephone in millions of American homes,  
and to add to the calendar a sufficient num-  
ber of days to represent this total, every year  
would be Leap Year, with its extra day  
many times multiplied. The calendar would  
extend itself into a book of massive propor-  
tions—but even such a volume could not  
fully tell the story of how the telephone has  
met the communication needs of a nation  
whose every activity is geared to high speed.

## Enjoy a Thrilling Family Reunion by Long Distance

The next best thing to attending a family reunion in person is a get-together by low-cost long distance. You can be connected with different members of your family at different places on the same long distance call. Each can talk and be heard by the others. Just ask for the Conference Operator—she'll be glad to take care of the details.

## RESEARCH

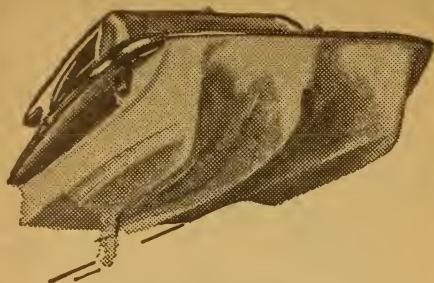

Telephone service is what it is today because engineers have never stopped working to learn more about speech and hearing. In the Bell Telephone Laboratories hundreds of scientists engage in constant research. The results? You can talk more easily and be heard more clearly over the telephone today than ever before because of these men of science. This telephone company, as a member of the Bell System, passes on to its subscribers the better service this research makes possible.

## Adding to the Calendar

By giving February a twenty-ninth day, Leap Year adds a single day to a single month.

If it were possible to compute the total of the seconds, minutes and hours gained each year through time saved by the use of the telephone in millions of American homes, and to add to the calendar a sufficient number of days to represent this total, every year would be Leap Year, with its extra day many times multiplied. The calendar would extend itself into a book of massive proportions—but even such a volume could not fully tell the story of how the telephone has met the communication needs of a nation whose every activity is geared to high speed.

## DO YOU SPEAK PLEASANTLY?

Remember, it may be your best friend, or  
your best customer, who is telephoning.  
Answer him as pleasantly as you would if you  
were face to face.

# Before you shop

Look in the Classified  
Telephone Directory  
for the things you  
want to buy. . . .

It will save you  
TIME—and . . . .  
countless steps.

In recalling movie boners, Cecil B. DeMille told of the time a modern telephone was placed at Caesar's elbow in the making of a Cleopatra film.

**RESEARCH**

Telephone service is what it is today because engineers have never stopped working to learn more about speech and hearing. In the Bell Telephone Laboratories hundreds of scientists engage in constant research. The results? You can talk more easily and be heard more clearly over the telephone today than ever before because of these men of science. This telephone company, as a member of the Bell System, passes on to its subscribers the better service this research makes possible.

Today and every day look in these Yellow Pages when you don't know where to buy.

## Not Eventually

That's when those  
referring to those  
yellow pages want  
what they are  
looking for.

### Enjoy a Thrilling Family Reunion by Long Distance

The next best thing to attending a family reunion in person is a get-together by low-cost long distance. You can be connected with different members of your family at different places on the same long distance call. Each can talk and be heard by the others. Just ask for the Conference Operator—she'll be glad to take care of the details.

## EMERGENCIES

An emergency may place thousands of people in peril; it may involve only an individual. The smell of smoke or the sound of prowlers in the home may create a crisis as real as those of flood, hurricane or earthquake.

All emergencies alike place a premium on communication facilities by which aid may be summoned swiftly. Every telephone has a potential value far outweighing that which is measured by its actual use, because it stands ready even for the emergencies which may never arise, but which are ever-present possibilities.

**RESEARCH**

Telephone service is what it is today because engineers have never stopped working to learn more about speech and hearing. In the Bell Telephone Laboratories hundreds of scientists engage in constant research. The results? You can talk more easily and be heard more clearly over the telephone today than ever before because of these men of science. This telephone company, as a member of the Bell System, passes on to its subscribers the better service this research makes possible.

A vital factor in the highly specialized work of providing dependable, low cost telephone service is that telephone supervisors—foremen, wire chiefs, chief operators, managers—start at the bottom. Every part of your service is managed by men and women whose judgment and decisions are based on experience with the job.

## COURTESY

We want your telephone service to be quick and good and cheap. But there is more to it than that. We want it to be courteous, too. No matter what the occasion, there's always time for a cheery "please" and a pleasant word of thanks. That is the Bell System way. It is one of the fine traditions of the telephone business.

## Adding to the Calendar

By giving February a twenty-ninth day, Leap Year adds a single day to a single month.

If it were possible to compute the total of the seconds, minutes and hours gained each year through time saved by the use of the telephone in millions of American homes, and to add to the calendar a sufficient number of days to represent this total, every year would be Leap Year, with its extra day many times multiplied. The calendar would extend itself into a book of massive proportions—but even such a volume could not fully tell the story of how the telephone has met the communication needs of a nation whose every activity is geared to high speed.

Your telephone company has always tried to see telephone problems through *your* eyes. It approaches its problems with the determination that "the customer *must* be pleased," and develops its service to that end. Particular care is taken, therefore, in selecting telephone workers. Telephone people want to serve you. Your viewpoint is their constant concern.

## THE VOICE WITH A SMILE

Every day many pleasant voices go over the  
telephone—many, many thousands of them.  
It seems the number is growing all the time.  
The reason for this is that most people realize  
the social and business value of "The Voice  
With A Smile."

## IT'S CONTAGIOUS

When someone speaks pleasantly to  
you, it is easy to answer in the same  
manner. It's really catching! Many,  
many times you form your impres-  
sion of people—and they judge you—  
by the sound of the voice over the  
telephone.

Distance, once a barrier to spoken words, has lost its power to limit the human voice. Today words defy intervening miles, and two friends with an ocean or continent between them talk as if face to face. In thus extending the range of man's voice, the telephone performs a modern miracle. It is a part of the miracle that this is done so swiftly, so easily and so cheaply.

**VOCAL ASSETS**

The "voice with a smile" can be a real asset. Haven't you often said of someone who has just telephoned—"My, but she has a pleasant voice." Or—"I like to do business with them because they are so nice over the telephone."

## Enjoy a Thrilling Family Reunion by Long Distance

The next best thing to attend-  
ing a family reunion in person is  
a get-together by low-cost long  
distance. You can be connected  
with different members of your  
family at different places on the  
same long distance call. Each  
can talk and be heard by the  
others. Just ask for the Confer-  
ence Operator—she'll be glad to  
take care of the details.

## VOCAL ASSETS

The "voice with a smile" can be a real asset. Haven't you often said of someone who has just telephoned—"My, but she has a pleasant voice." Or—"I like to do business with them because they are so nice over the telephone."

## Scaffolds

### WHITLOCK BROS INC

3558 Western Branch  
Blvd Portsmouth Va-399-3047  
(See Advertisement This Page)

Your telephone company has always tried to see telephone problems through *your* eyes. It approaches its problems with the determination that "the customer *must* be pleased," and develops its service to that end. Particular care is taken, therefore, in selecting telephone workers. Telephone people want to serve you. Your viewpoint is their constant concern.

 Communications with TELETYPE-  
 WRITER SERVICE. Connects through  
 Teletype Operator to any Teletype  
 subscriber in the U. S. Private Tele-  
 type Also Available.

*"FOR INFORMATION CALL"*

**CHESAPEAKE & POTOMAC TELEPHONE**  
 CO OF VA 203 31st-----428-9911

It's good business to call long distance.

9 OUT OF 10—

—local telephone users consult these  
 yellow pages when they want to find  
 where to buy it.

# More Convenience from your telephone . . .

NOW AVAILABLE THROUGH YOUR  
 LOCAL TELEPHONE CO. BUSINESS OFFICE

### Automatic Answering Service

—automatically answers  
 your telephone, gives  
 caller recorded message  
 and may record his mes-  
 sage if desired.

### Call Director

centralized tele-answering for a number  
 of people.

—A new communication  
 tool for modern busi-  
 ness. For the business-  
 man who receives many  
 calls. For the secretary  
 or clerk who provides

### Princess Telephone

—enables you to dial  
 with ease in the dark.  
 Serves as a night light  
 when the telephone is  
 not in use. Available  
 in color.

### Speakerphone

—allows telephone con-  
 versation without hold-  
 ing telephone receiver.  
 May also be used in  
 normal way.

## COURTESY

We want your telephone service to be quick and good and cheap. But there is more to it than that. We want it to be courteous, too. No matter what the occasion, there's always time for a cheery "please" and a pleasant word of thanks. That is the Bell System way. It is one of the fine traditions of the telephone business.

## Is your home TELEPHONE-MODERN?

Today there is a world of new services that make homes cheerier and living more pleasant. Colorful extension phones—in bedrooms, kitchens, playrooms—save time and steps. With the new Home Interphone, you can talk room-to-room—even answer the door from

your nearest phone. Another modern note is the musical Bell Chime which announces incoming calls with pleasing tones. These are just a few of the services now available to make *your home telephone-modern*. Call our Business Office about them . . . and others.

KEY TO SERVICES. 1. HOME INTERPHONE 2. INTERPHONE AND WALL SET  
3. BELL CHIME 4. EXTENSION 5. PRINCESS PHONE
